**Subject:** Fw: Additional work at the Dimock Residential Groundwater Site

Jackie,  
Would you please process another \$80K for SERA work at Dimock. The scope remains the same.  
Thanks. Rich

**Subject:** Additional work at the Dimock Residential Groundwater Site

Rich,  
I spoke to John Gilbert regarding the needed data evaluation and management for the Dimock groundwater data sets, and we estimate that the SERAS contractor will need an additional \$80,000. to complete the population of the SCRIBE data base with new data and pre-existing data, continue to QA the incoming analytical data sets, and to provide additional technical support on site, and from SERAS offices as required.  
If you have additional questions, please don't hesitate to call me directly. See you at the Poconos!
